

Seattle Multimodal Project at Colman Dock

- Replacing the timber portion of the dock with a new and reconfigured dock.
- Replacing the main terminal building.
- Replacing the vehicle transfer span and overhead loading structures (Slip 3).
- Replacing the passenger-only facility with funding provided by King County.
- Improving accessibility and pedestrian connections to transit.
- Mitigating for 5,200 sqft of new overwater coverage.

An important safety project to keep the facility operating into the future for the more than 8.5 million people who use Colman Dock each day
