

Transportation Footprint – Steelscape Kalama

April 21st 2015

Transportation Footprint Raw Materials

Hot Rolled Coil provided by Parent Companies:

BlueScope, Australia.
Nippon Steel, Japan.

Transportation Footprint Raw Materials

Hot Rolled Coil provided by US Suppliers:

**North Star BlueScope, Ohio.
Nucor Steel, Indiana.**

Transportation Footprint

- The Hot Rolled coil is then ‘Pickled’ (cleaned of oxide and rust) and Cold Rolled to various thickness’s.
- About 40% of our Cold Rolled Coil is railed to our Sister plant in Rancho Cucamonga, CA.

Transportation Footprint

- The remainder here at Kalama is galvanized for sheeting applications such as air-conditioning ducting, steel studs, and floor decking.

Transportation Footprint

- Some of the galvanized steel is painted on the Kalama Paint Line for use as siding, roofing, or architectural trim.

Transportation Footprint

- From Kalama the painted steel is trucked to sister companies and customers across the entire western United States, Alaska by barge, and into the Mid-West.

Transportation Footprint

- The painted product is formed at the customer for use as roofing and wall sheeting and architectural trim.

Transportation Footprint

- **Steelscape Kalama:**
 - Received 22 shiploads of steel coil
 - Received and dispatched 2595 Rail Cars
 - Dispatched 7081 trucks in CY 2014.

TEAMWORK

Alone we can do so little; together we can do so much.
