Washington State Transportation Commission
Ferry Riders Opinion Group (FROG) Survey Panel
WSF Reservation Survey June 2016
Presentation
Methodology

- Online Survey of Washington State Ferry Riders Opinion Group (FROG) survey panel.

- A total of 5,414 surveys were completed in July 2016 (July 15-26, 2016).

- WSF sent an email to their database of reservation users inviting them to join the FROG and take the reservation survey. WSTC conducted intercepts on WSF vessels during the survey period that directed new FROG members to also take the survey. Approximately 1,500 surveys (included in the total completed number above) were completed from those efforts.

- Data was weighted by route according to the July 2016 WSF traffic report, based on the last trip taken.

- Total & sub-group sample sizes and definitions:

Fifty five percent (55%) of the FROG panel members responding to the survey have used or tried to use the WSF reservation system. Approximately 86% of those who used the reservation system had no problems completing their reservation. Eleven percent (11%) that used the system had problems and 4% tried to use the system but never completed the reservation. The percent of those in 2016 who have used the system with no problems is an improvement over 2015. Over half (55%) of those dissatisfied with the system reported that they did not have a problem completing any of their reservations.

**Q.4a Have you ever used or tried to use WSF reservation system?**
System-wide the 3,905 respondents made an average of 6.9 reservations in the last year. Those that used the San Juan Island routes last averaged 16.1 reservations per year compared to 9.4 for those that last used the Port Townsend route. Those living full time on San Juan (19.4), Orcas (20.1), and Lopez (19.9) all make more reservations on average than either system-wide (6.9) or San Juan visitors (5.2). Those dissatisfied with the reservation system made statistically more reservations (10.2) than those satisfied (6.6).

Q.6d Approximately how many different reservations have you made in the last year?

July '16 Total (n=585)

June '15 Total (n=683)
The 3,905 riders who have used the WSF reservation system were asked how they would rate it. The majority of users are satisfied with the system (79%) with 13% being dissatisfied. This is an improvement over the results from 2015.

Q.5 Overall, based on your experience, how would you rate the reservation system?
When broken out by last route used, the riders on the Anacortes - Sidney (84%) and Port Townsend – Coupeville route (85%) are much more satisfied (Very + Somewhat) with the reservation system than those who last used the Anacortes – San Juan Islands route (74%).

**WSF Reservation System Rating by Last Route Taken**

- **Very Dissatisfied**: 8% SJ Riders, 5% BC Riders, 6% PT Riders
- **Somewhat Dissatisfied**: 13% SJ Riders, 6% BC Riders, 6% PT Riders

Q.5 Overall, based on your experience, how would you rate the reservation system?
When broken out by the San Juan County residency, riders living on Lopez (32%) are the most dissatisfied (Very + Somewhat) followed by San Juan Island (25%) and Orcas Island (23%).

**Q.5 Overall, based on your experience, how would you rate the reservation system?**
For riders on the San Juan Island routes, the most often cited reason for being dissatisfied with the reservation system is “Too Small Unreserved Portion” (23%) followed by “Favors Tourists Over Locals” (21%) and “Program Is Frustrating” (19%).
Of the 630 dissatisfied users of the reservation system, “Make Reservations Functionality Better” (25%) is the most often cited changes they would like. This suggestion was followed by “Change Unreserved Amount” (16%), “Give Priority To Local Residents” (16%) and “Kill Reservation Program” (15%).

Q.6b Now tell us what we can do to change it so it might work better for you,
System-wide 13% are dissatisfied with the reservation system. Residents of Lopez (32%) Island are the most dissatisfied followed by San Juan Island (25%) and Orcas residents (23%).

Q2a. What was the most recent WSF route you took? AND Q.5 Overall, based on your experience, how would you rate the reservation system?
A description of the current WSF reservation system was provided and respondents were asked if it seemed reasonable to them. A majority (78%) said it did seem reasonable, while 22% said it seemed unreasonable.

**Q.7a Here is how the reservation system currently works:**

**For Port Townsend/ Coupeville & Anacortes/ Sidney BC sailings:**
All reservations for a sailing schedule season are available two months prior to the start of the season. Up to 80% of the space on the Port Townsend route and 100% of the space on the Anacortes (99% on Sidney B.C.) route can be reserved.

**For San Juan sailings:**
Reservations are available for up to 90% of the San Juan Island sailing space. Two months ahead of the sailing schedule season, 30% of the regular height space (typically general vehicles) and 100% of all tall height space (vehicles over 7’2” high or over 30’ long – typically commercial vehicles/Motorhomes/RVs) becomes available for reservations. At 7 am two weeks prior to any individual travel day, an additional 30% of the regular height space becomes available. The remaining 30% becomes available at 7 am two days prior to the travel day.

*Based upon the above, does the WSF reservation program seem reasonable to you?*
Based on residency, riders living on Lopez (39%) Island have the highest “unreasonable” response compared to the rest of the San Juan Islands.

**Q.7a** Here is how the reservation system currently works:

**For Port Townsend/ Coupeville & Anacortes/ Sidney BC sailings:**
All reservations for a sailing schedule season are available two months prior to the start of the season. Up to 80% of the space on the Port Townsend route and 100% of the space on the Anacortes (99% on Sidney B.C.) route can be reserved.

At 7 am two weeks prior to any individual travel day, an additional 30% of the regular height space becomes available. The remaining 30% becomes available at 7 am two days prior to the travel day.

Based upon the above, does the WSF reservation program seem reasonable to you?
The 1,256 riders who felt the reservation system description as presented was unreasonable were asked why and what they might change. The most often mentioned reason for being unreasonable was the “Unreserved Space Allocation” (35%) and the rider not liking to “Plan Ahead” (22%). Of lesser mention was that the system as described “Penalizes Locals” (18%).

Q.7b Please tell us why it does not seem reasonable to you and how we might change it.
Respondents were asked if they had used in the last 2 years, or are likely to use in the next 2 years, one or more of the current reservation routes. Fifty-six percent (56%) said they had or will use the Port Townsend/Coupeville route, it was followed by Anacortes/San Juan Islands (52%), and Anacortes/Sidney BC (22%). Approximately 20% of those interviewed have not and do not plan on using any of the three reservation routes.

Q.8 Which of the following ferry routes, if any, have you taken in the last 2 years or are likely to take in the next 2 years? (Check all that apply)

- Port Townsend / Coupeville: 56% (July '16), 54% (June '15)

**WSTC FROG - 2016 WSF Summer Reservation Study**

20
The 3,905 riders surveyed made an average of 6.9 reservations per year. The 3,269 riders who have used the WSF reservation system more than once were asked if they ever made multiple reservations for the same trip (multiple reservations on the same day) and almost half (45%) said they had. Those who have made multiple reservations for the same trip were asked how many times they did that in the last 30 days. Half (49%) reported they have not done so in the last 30 days.

Q6 Approximate how many different reservations have you made in the last year? Q6d1 Have you ever made multiple reservations for yourself for the same trip (multiple sailings)? Q6e During the last 30 days, how many, if any, multiple reservations did you make for yourself for the same trip (multiple sailings)?
The 3,905 riders who have used the WSF reservation system were asked to rate the customer service they received when they arrived at the terminal. Only 9% are dissatisfied with the terminal customer service with the Anacortes terminal being the most often mentioned (42%). Full time San Juan Islands residents are significantly more dissatisfied (19%) than part time residents (9%) or San Juan Islands visitors (8%). Those reporting they had a problem with their reservation (23%) are significantly more likely to say they are dissatisfied with terminal staff than those reporting no reservation problems (7%). Lopez Island residents reported more problems with terminal staff (23%) than San Juan Island (19%) or Orcas (15%) residents.

Q6f: We would like to get your ratings on a couple specific aspects of the reservation process. For this question, please think of only your arrival(s) at the terminal when you have a reservation. How would you rate WSF’s handling of your reservation when you arrived at the terminal?

- Very Dissatisfied: 3%
- Somewhat Dissatisfied: 6%
- Neither Dissatisfied or Satisfied: 12%
- Somewhat Satisfied: 19%
- Very Satisfied: 60%

Q6f2: At which terminal(s) were you dissatisfied with how the terminal staff handled your reservation?

- Anacortes: 42%
- Port Townsend: 29%
- Coupeville: 27%
- Orcas: 8%
- Friday Harbor: 7%
- Sidney: 1%

Q6f3: What specifically was the issue or problem that you had with how the terminal staff handled your reservation?
The 3,721 riders who have used the WSF reservation system from Anacortes, Friday Harbor, or Orcas Island were asked about their level of anxiety over not making the tollbooth in time and thus losing their reservation. One in three (36%) say it is a large worry while 62% say it is either a worry or large worry to them but only 13% actually have experience not getting to the tollbooth on time. Full time San Juan Islands residents worry (“A worry” + “Large Worry”) more so (77%) than part time San Juan Islands residents (64%) or San Juan Islands visitors (57%). Lopez Island residents (83%) worry more than San Juan (76%) or Orcas (75%) Island residents. Full time San Juan Islands residents have actually missed sailings (21%) more often than part time San Juan Islands residents (12%) or San Juan Islands visitors (9%). Actual missed sailings are about equal between residents of Lopez (22%), San Juan (21%), and Orcas (20%) Island residents.

Q6g Background: At Anacortes, Friday Harbor and Orcas Island, vehicles with reservations must check in at the toll booth at least 30 minutes prior to their reserved departure time. Vehicles that do not check in at the toll booth 30 minutes ahead of the reservation time will lose their reservation and just travel standby. Drivers are encouraged to arrive at the end of the line at least 45 minutes prior to their reserved departure time so that they reach the toll booth within 30 minutes of reserved departure time. Drivers are responsible for ensuring that they reach the toll booth 30 minutes in advance of their reservation. Question: During the summer, how big a worry to you is arriving at the terminal within 45 minutes of your reserved departure time, knowing you can lose your reservation if you are late, and thus put on standby because you did not make the toll booth within 30 minutes of your reserved departure time.

Q6h During 2016 have you ever arrived within 45 minutes of your reserved departure time and not made the tollbooth within 30 minutes of your reserved departure sailing?
The 3,721 riders who have used the WSF reservation system from Anacortes, Friday Harbor, or Orcas Island were given two choices and asked to select which they felt WSF should use to determine if you have arrived within time. Six in ten (59%) said it should be based on their arrival at the end of the line 45 minutes ahead of sailing time.

Q6j How should Washington State Ferries determine if a vehicle has arrived “on-time” for their reservation? If they ... Q6k By what method should WSF use to determine if you have arrived in line within 45-minutes ahead of your scheduled sailing?
The 1,335 riders who have used the WSF phone staff to handle reservation issues and no-show fee reversals were asked how they would rate the customer service of the phone staff. Fourteen percent (14%) are dissatisfied with how they were handled. Full time San Juan Islands residents (20%) are more likely to be dissatisfied with the phone staff handling of fee issues than part time San Juan Islands residents (12%) or San Juan Islands visitors (10%). Lopez Island residents (25%) are more likely to be dissatisfied with the phone staff than either San Juan (21%) or Orcas (17%) Island residents.

**Q6m** Based on your experience, if any, how would you rate WSF telephone customer service when you have called to have reservation fees or no-show fees reversed? **Q6m2** What specifically was the issue or problem that you had?
No-Show Fees & Multiple Reservation

The 3,905 riders who have used the WSF reservation system were given a short background description on the impact of making multiple reservations for the same trip and asked if the no-show fees should be raised from the current $10/8. Just over half (53%) said the no-show fees should be raised to $23 (on average). Visitors to San Juan Islands (56%) are more likely to say increase the no-show fees than either part time San Juan Islands residents (53%) or full time San Juan Islands residents (44%). Those living on Orcas Island (50%) are more likely to want the no-show fees increased than Lopez (45%) or San Juan (40%) Island residents. The average amount based on all 3,905 respondents for the no-show fee is $17.

Q6n Background: The current no-show fees that most people pay for standard size vehicles is $10 per no-show in San Juan ($8 for Port Townsend/Coupeville). Some riders are booking multiple reservations on multiple sailings for their single trip which causes more boats to show as “full” on the reservation site. It also means boats may leave with space available given the no-shows by those riders. Question: Should the no-show fees be increased to cut down on the multiple reservation bookings on multiple sailings for a single trip? 

Q6o The current no-show fee for vehicles is $10 in San Juan ($8 for Port Townsend/Coupeville), what would you suggest the fee be increased to in order to cut down on multiple reservation bookings on multiple sailings for a single trip?
