Fare vs. Service Poll
02/05/10

Q1 If you were forced to select one option, which of these would more likely cause you to severely reduce your ferry ridership?

- Cutting the ferry schedule on your route by a third (but keep the fare the same): 31%
- Increase fares on your route by a third (but keep the frequency the same on your route): 36%
- Neither cutting schedules nor increasing fares would cause me to severely reduce my ferry ridership: 33%

Respondents:
Panel Members, 58% (n=2,828)
Non-panel, 42% (n=2,828)
