

Clean Energy and Green Transportation

Commissioner Stephanie Bowman

Helping to Lead the Way

- Acknowledging urgency
- Investing in innovation
- Building partnerships

Where a sustainable world is headed.™

Partnering with Airlines

- Charging stations for ground vehicles
- \$38 million combined investment
- Saving 8,000 tons of carbon each year equals the work of 400,000 trees
- Triple win
 - ✓ Less fuel
 - ✓ Less maintenance
 - ✓ Protect the environment

Investing in Innovation Reduces Emissions

- Electricity and pre-conditioned air at every gate
- Engines off saves fuel, reduces pollution
- 40,000 tons of carbon per year equals the work of 2 million trees

Leading the Nation in Car Charging

- 54 charging stations in parking garage
- 2 fast chargers in cell phone lot
- 10 fast chargers for TNCs and taxis

Greening the Seattle Waterfront

- Shore power for cruise ships
- Shore power for cargo ships at T-5
- Seattle City Light “Utility Next” for T-66

Working to bring on Solar

- Solar arrays on Pier 69 headquarters and at Fishermen's Terminal
- Constructing 2 new arrays at Shilshole Bay Marina
- Plans underway for Fishermen's Terminal Gateway Building and the Maritime Innovation Center

Thank you!
